

Golden Blount TEXAS STACK

Texas Stack 30" with optional CEBB Controlled Ember Bed Burner

Patented

Standard Features:

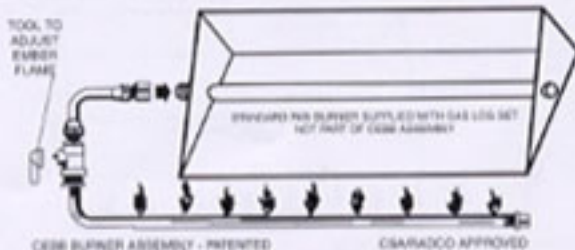

- 8-log set
- 5/8" thick grate
- Large Massive Logs
- "CCT" Criss Cross Technology For a Realistic Flame Pattern
- Large Amount of Embers
- Black Rock Standard

Controlled EMBER-BED BURNER

Complete With:

- Gas Control Valve
- Connector Parts
- Glowing Embers
- Vermiculite

The Controlled Ember-Bed Burner furnishes artificial ember-beds inside a front of the gas log assembly in order to simulate the appearance of burning embers, thereby enhancing the attractiveness and realism of the fireplace.
