"Texas Hickory Fire" standard features include:

- 7 to 11 logs per set
- Available in 18", 21", 24", 30" and 36"
- 5/8" thick grate
- Unique heavily textured "Hickory" logs
- Large amount of embers
- Black rock standard
- Natural or LP gas
- See-thru models available

Controlled Ember-Bed Burner

Complete with Gas control valve, connector parts, glowing embers, vermiculite

The controlled ember-bed burner illustrates artificial ember-bed material in front of the gas log assembly, in order to create the appearance of burning embers. It also enhances the attractiveness and realism of the finished CSA/BAICO Approved
